English	B2

CERTIFICATIONS

Introduction to Cybersecurity
Cisco Networking Academy · 2026

PROFILE

Information Engineering for Video Games and Virtual Reality student at the Polytechnic University of Marche. I build games, simulations and apps with Unity, Godot and Flutter. During my internship at Loccioni I coordinated the project for a gasoline injector test bench and contributed to the C# code of a pick-and-place system. I'm interested in industrial simulation, virtual reality training and serious games.

EDUCATION

Information Engineering for Video Games and Virtual Reality 2025 – present
Polytechnic University of Marche

- Object-Oriented Programming: 28/30, with the game “Oltre il tempo”.

Technical high school diploma · Computer Science track 2020 – 2025
I.I.S. «G. Marconi – E. Pieralisi», Jesi

EXPERIENCE

School-to-work internship 2024
Loccioni
February – May, 2 days a week · first two weeks of June and of September

- Project manager for a gasoline injector test bench.
- Developed C# code for a pick-and-place system.

PROJECTS

Called It! 2026
Personal project · Solo · complete app

An app for making predictions among friends in private groups, with valueless virtual coins: you bet on the right answer and the group checks how it went.

Flutter · Dart · Supabase · PostgreSQL · Riverpod — portfolio-jet-theta-89.vercel.app/en/projects/called-it

Oltre il tempo 2026
Object-Oriented Programming exam · UNIVPM · 28/30 · Team project · 5 people

A detective text adventure for the terminal, set in 1943 Italy: a detective chases a killer who seems to come from the future.

C# · .NET · JSON · OOP — portfolio-jet-theta-89.vercel.app/en/projects/oltre-il-tempo
